Hi, I'm Tom

I'm a Product Designer with over 10 years of experience designing apps, some of which service billions of people.

Product Designer

Meta, San Francisco (2019 — 2023)

Lead Product Designer on Facebook's registration and login products, as well as Account Center, a 0-1 product that was personally overseen by Mark Zuckerberg as a company priority. This involved pitching product strategy, prototyping and planning/executing experiments at scale.

Lead Product Designer

Jtribe Apps, Melbourne (2016 — 2019)

Transformed a medium sized app development studio by introducing Product Design services. Built and led a small mobile design team which drove 28% uplift in agency revenue. Achieved 3 individual App Store features and 6 top-five categorical rankings. Clients worked with include Movember, Save The Children, and Roll'd.

Freelance Mobile Design Lead

Pokerstars, London (2012 — 2016)

Led the redesign of the mobile app onboarding, resulting in a +14% registration increase from a 40 million user base.

Led and recruited small teams comprised of visual designers and developers to successfully prototype, test, and pitch the future design direction of the mobile client to company executives.
